

VERNIER CONTROLS

Vernier control is ideal for remote manual operation of engine RPM setting (throttles), chokes, valves or other application requiring coarse or fine adjustment.

- Detachable vernier control head to the cable helps installation easy
- Positive adjustable brake (vibration resistant)
- Positive adjustment by turning the knob in either direction
- 7 turns for 1" (25.4 M/M) of linear movement for micro adjustment
- Ideal for shut off valves, fuel, and water
- Recommended operating load is up to 20 lbs
- Fast shutdown by pushing button and knob

2300L Cable

Part Number: 920XX FT or 920XXXX M

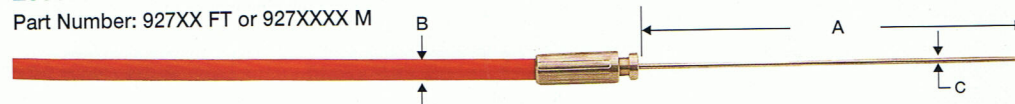

2300LB Cable

Part Number: 925XX FT or 925XXXX M

2300LC Cable

Part Number: 927XX FT or 927XXXX M

3300L Cable

Part Number: 930XX FT or 930XXXX M

3300LB Cable

Part Number: 933XX FT or 935XXXX M
